OF EMERGENCY SERVICES

SITUATION SUMMARY

Activations

- PG&E has activated their Emergency Operations Center to monitor the ongoing precipitation throughout the state. PG&E has additional crews pre-staging resources to address any potential utility outages.
- AT&T is on stand by and monitoring the situation.

River Forecasts

The following Rivers are currently above Monitor Stage as of 1850 hours:

Coastal Region

- Eel River at Fernbridge, 16.6 feet, Monitor Stage 14.0 feet (Humboldt County)

Inland Region:

- Scott River at Fort Jones, 12.7 feet, Monitor Stage 12.0 (Siskiyou County)
- Cosumnes River at Michigan Bar, 7.7 feet, Monitor Stage 7.0 feet (Sacramento County)

Rivers currently forecast to go above Flood Stage

- Navarro River at Navarro, 14.1 feet, Flood Stage: 23.0 feet (Mendocino County)
 - Exceeding flood stage will cause flooding of Highway 128 approximately 5 miles from Highway 1.

Rivers currently forecast to go above Monitor Level

Inland Region

- Sacramento River at Colusa Bridge, 44.0 feet, Monitor Stage 63.0 feet (Colusa County)
- Sacramento River at Colusa Weir, 60.5 feet, Monitor Stage 61.8 feet (Colusa County)
- Sacramento River at Tisdale Weir, 43.9 feet, Monitor State 45.5 feet (Colusa County)
- Cosumnes River at McConnell, 38.5 feet, Monitor Stage 40.0 feet (Sacramento County)

SITUATION SUMMARY

Weather of Concern

- A colder storm system will move into the area later tonight and Monday and bring more precipitation with lower snow levels and gusty winds. The highest snow accumulations will occur above 6000 feet, however light accumulations are possible down to 5000 feet Monday and as low as 3500 feet Monday night with snow possible
- Winter Storm Warnings are in effect until Monday evening for the entire Sierra Nevada Mountain range as well as the Los Angeles, San Bernardino, Ventura, and San Diego County mountains.

COASTAL REGION

- Flash Flood Watch in effect through late this evening for San Francisco, Marin, Sonoma, Alameda, Contra Costa, San Mateo, Santa Clara, Santa Cruz, Monterey, San Benito Counties

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA

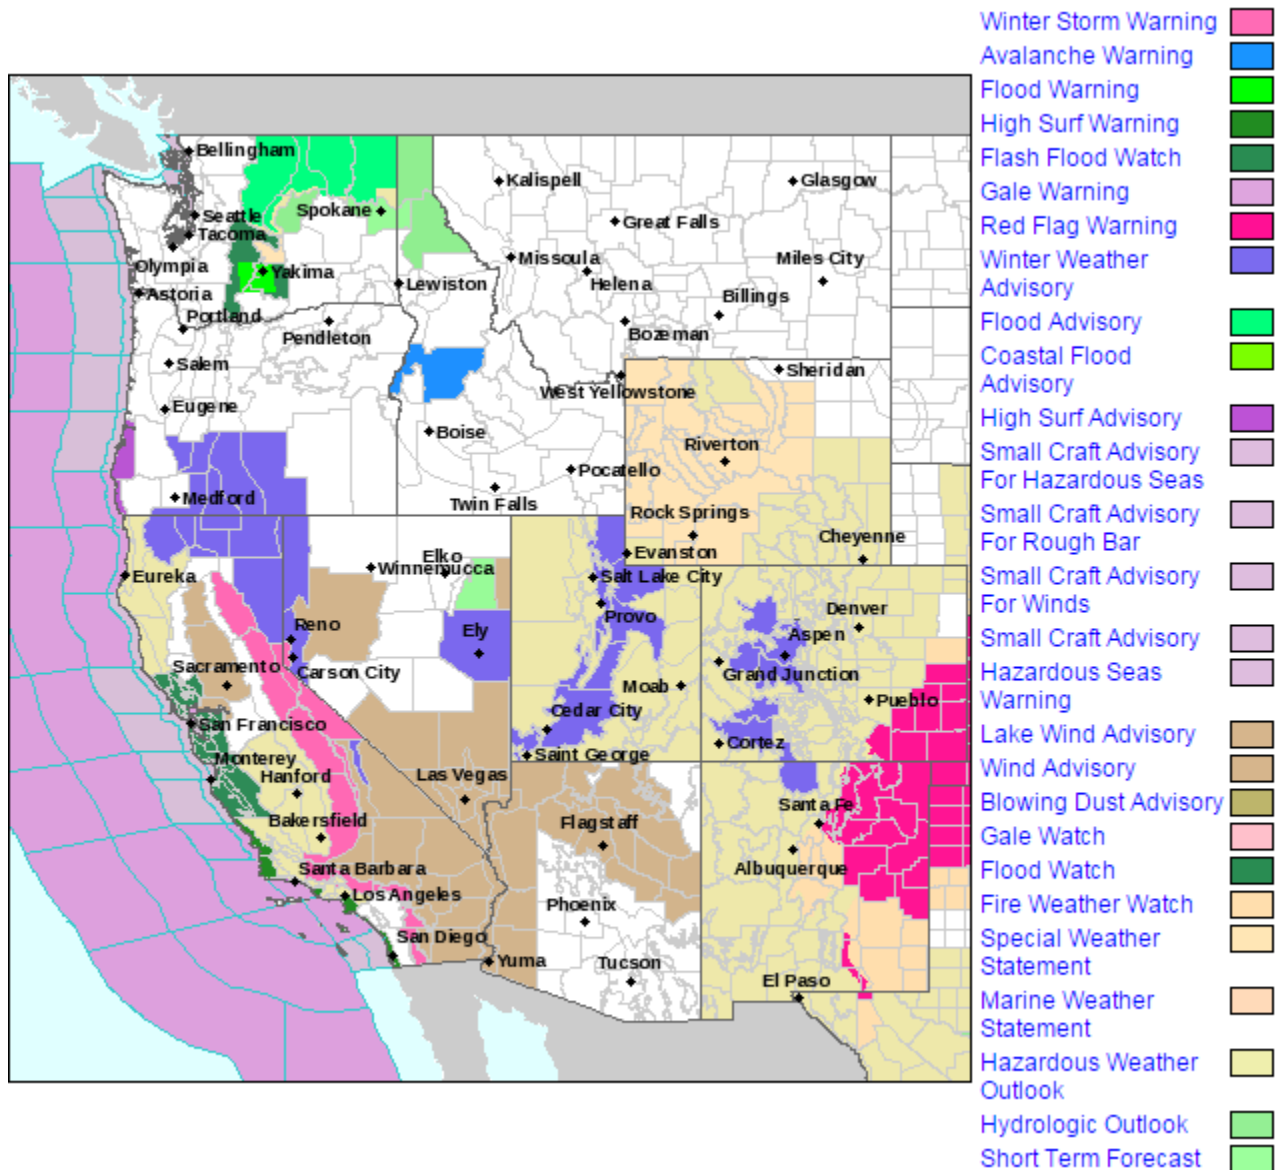

The first storm is now exiting Northern California, but a second storm will quickly follow. The biggest impact with this second storm will be over the mountains, as very high snowfall rates, much lower snow levels, and gusty winds. The Valley and foothill locations will likely see less rain than the first storm brought, but creeks and streams are still running high and localized flooding will still be possible. Gusty winds won't be quite as strong as on Saturday, but could still cause localized power outages. The strong weather system will produce gusty winds, widespread showers, and isolated thunderstorms from this evening through tonight. Rain could be heavy at times and renewed flooding is possible. Showers will taper off by late Monday. Tuesday and Wednesday look dry, although rain chances will continue in the North Bay. Rain chances will then spread south by late Thursday.

SOUTHERN CALIFORNIA

A cold storm system is expected to impact southwest California tonight through Monday, with its effects lingering into Tuesday morning. The steadiest rain is expected tonight through Monday morning as a cold front moves through the region. Behind the cold front, precipitation will become more showery, with thunderstorms possible for Monday and Monday evening. Significant snow accumulations are expected above 6,000 feet, with light snow accumulations possible down to 4,000 feet. Rain will likely result in a slow Monday morning commute. Thunderstorms will also be capable of producing debris flows near burn areas. More showers will develop and a few may be briefly heavy. Snow will fall in the mountains and could get heavy at times through Monday night. Isolated thunderstorms are possible as well. The precipitation will end late Monday night. Gale force winds are likely over the coastal waters by evening. High surf will also hit area beaches through Tuesday. Dry and warmer for midweek then cooler into the weekend with another chance of precipitation Friday night and Saturday.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES MISSIONS

New Cal OES Missions

- **2016-LAW- 21826, 3/6/2016, 0131 hours** - IERCC advised CSWC of a SPOT activation, coordinates place the device within Yosemite National Park (YNP) on the Buena Vista Lake Trail near Horse Ridge. 67 year old male is in possession of the device and has been mountain climbing within the park for the past 5-6 days. YNP SAR personnel are currently putting a hasty team to send out **Mission Ongoing**

Closed Cal OES Missions

- **2016-LAW-21820, 3/5/2016, 1640 hours** - IERCC advises of a SPOT activation at GPS coordinates, plotting near Emigrant Campground in Death Valley National Park Service (NPS). Per IERCC, the device's registered owner (R/O) requested emergency aid related to a vehicle accident they had witnessed. IERCC has contacted Death Valley NPS dispatch and relayed coordinates. Death Valley NPS personnel arrived on scene of the accident. SPOT device was deactivated. **Mission Closed**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
